II. ANNUAL SERVICE AND BUDGET PLAN FOR FY15/16

Polk County Health Services, Inc. exists to support improved access to health care and to promote full citizenship for people with mental illness, intellectual disabilities, or developmental disabilities. This plan assumes that the state will not mandate expansion of initial core services or creation of additional core services without additional funding. This plan covers the period from July 1, 2015 through June 30, 2016.

A. Access Points & Care Coordination Agencies

An access point is a part of the Polk County regional service system that is trained to complete the MH/DD regional applications and determine service eligibility for persons with a disability. Polk County has designated the following access points, including care coordination agencies, and the services they are able to authorize.

C. Scope of Services & Budget

The annual budget and planning process is utilized to identify and implement core disability service improvements. The Polk County Region collaborates with stakeholders to assess need and to advocate adequate funding for services and supports in the initial core and additional core service domains. Polk County is the funder of last resort. Additional funding sources are used to empower individuals to reach their fullest potential. The Polk County Region is responsible for services that are authorized in accordance with the Regional Management Plan and within the constraints of budgeted dollars. Services funded by PCHS are subject to change or termination with the development of the annual budget each fiscal year. The Regional Management Plan Policy & Procedure Manual addresses mandated services access standards.

Annually, Polk County Health Services reviews actual expenditures and services provided, stakeholder input and participation, quality assurance implementation findings, waitlist information, progress toward goals and objectives, and, if any, appeal type and resolution to determine if gaps in services or barriers to services exist. In December of each year this review is submitted to the Department of Human Services. In addition, the Department of Human Services provided the following information about service capacity. The Polk region's results are better than the statewide results for all but one item.

- a) A penetration rate that is at least equal to or exceeds the statewide per capita average for individuals with a mental illness or individuals with an intellectual disability.

County Name	Population	MI/CMI/ID People Served	MI/CMI/ID Rate per 10,000

Polk County developed a provider network based on projections of incidence and prevalence of need for the priority population groups discussed in this plan. As noted, Polk County consults with the provider network and community at large to develop plans and services to meet the need. When we compare the current system of care with the Access Standards in IAC 441-25.3, we believe the parts are in place and are meeting the requirements for access with exceptions as noted below. We routinely work with providers when access is an issue to eliminate wait times, but as we indicate

below, there are a number of variables that influence access times. Some of the variables are within a region's ability to impact change and some are not.

Code Reference	Standard	Results	Comments
25.3(1)a	A community mental health center or federally qualified health center that provides psychiatric and outpatient mental health services in the region.	<ul style="list-style-type: none"> • 2 Adult CMHCs • 1 Child CMHC • 1 FQHC 	Broadlawns and Eyerly Ball Community Mental Health Services are Adult Community Mental Health Centers and Orchard Place/Des Moines Child Guidance is a children's Community Mental Health Center. The Polk County Health Services Chief Executive Officer and Administrative Team proposed the FY16 budget. In November of 2014, the Polk County Health Services Board of Directors reviewed and recommended the budget to the Polk County Board of Supervisors. The Board of Supervisors adopted the FY16 Budget in March of 2015. Polk County Health Services is responsible for managing and monitoring the adopted budget. The following charts show the FY16 Budget revenues and the expenses by Initial and Additional Core Service Domain and Other Services. If a particular service has a “Yes” in the Priority Population or Additional Population column, but the corresponding budget column has \$0, the Polk County Region will pay for that service for a member of the identified population, even though historically there has not been a need.

D. Financial Forecasting Measures

Historical service utilization is the starting point for all financial projections. Throughout the year; PCHS staff and stakeholders identify unmet needs and areas for service development, which are incorporated into subsequent strategic plans and budgets. Strategic plan priorities are identified in the areas of system infrastructure, community living, employment, and treatment.

Strategic Plan Priority Area	FY16 Strategy	Projected Cost
ID/DD/MH Core Service Delivery System	Work with the ID/DD provider network to determine alternative ways to manage the system.	\$25,000
ID/DD/MH Core Service Delivery System	The Polk Region will develop an evidence-based Individual Placement and Support (IPS) model that supports mental health treatment. Additionally, the Polk Region will begin work to align segregated Medicaid funded services impacted by new federal regulations.	\$1,200,000
ID/DD/MH Core Service Delivery System	The Polk Region is required to ensure that certain evidence-based practices (EBPs) are available and to independently verify that they meet fidelity standards (FS). In addition, there are EBPs without fidelity scales already in use, and others that should be implemented.	\$10,000
ID/DD/MH Core Service Delivery System	Implement Peer Support and Family Support services.	\$50,000
ID/DD/MH Core Service Delivery System	The Polk Region will have a system of care that is welcoming and can address the complex needs of all individuals.	\$40,000
ID/DD/MH Core Service Delivery System	Utilize technology to connect, support, and create value for our stakeholders.	\$100,000
Community Partnerships	Have the capacity to provide all needed services with qualified staff.	\$5,000
Community Partnerships	Develop the structure for a more comprehensive network of services will be and the processes for how it will operate.	\$5,000
Community Partnerships	Provide Mental Health First Aid (MHFA) training to 4,000 citizens of Polk County each year. Develop a program to increase public awareness and acceptability.	\$200,000

E. Provider Reimbursement Provisions

Polk County will contract with MHDS providers whose base of operation is in the region. Polk County may also honor contracts that other regions have with their local providers or may choose to contract with providers outside of the Region. A contract may not be required with providers that provide one-time or as needed services.

Over the past several years, Polk County has used its contracting capacity to implement a series of strategies for moving towards outcome-based payments. Polk County uses a mix of fee-for-service, fee-for-service with performance payments, and capitated case rates for most of its services. It provides block grants only for specific population based activities where billing by individual served is impossible or impracticable. Non-traditional provider contracts are used in instances when services are provided by individuals or families.

Polk County service contracts require that all providers meet all applicable licensure, accreditation or certification standards; however Polk County makes serious efforts to stimulate access to more natural supports in its service provider network. Successful attainment of positive outcomes, consumer and family satisfaction, and cost effectiveness measures are the most important factors in continued network participation.

PCHS has identified access points within the provider network to assist individuals or their representatives to apply for services. Individuals needing outpatient mental health services, inpatient mental health services or psychiatric medications may apply for services at one of the Community Mental Health Centers. For those who need long-term services, they may apply at any of the access points. They will meet with a Service Coordinator who will assist in accessing all local, state and federal benefits such as Medicaid, Iowa Health and Wellness, food stamps, Social Security benefits, General Assistance, housing assistance, etc. Service coordinators are SOAR trained to assist those who are homeless and needing to apply for Social Security benefits. An assessment is completed to determine which long-term coordination service is needed. A warm hand off takes place with the long-term coordination program, possibilities include Integrated Health Home, Targeted Case Management, Assertive Community Treatment teams, Integrated Services Agency and Long-term Service Coordination. The long-term coordination programs are responsible for ensuring that all needed services are obtained, regardless of funding source.

F. Financial Eligibility Requirements

The financial resource eligibility criteria included in the Policy and Procedures Manual, which became effective July 1, 2014, are more restrictive than the criteria Polk County used prior to that date. Individuals who were eligible under the previous resource eligibility criteria will continue to be eligible as long as they meet those criteria. Polk County Health Services will consider granting director's exceptions to the financial resource eligibility criteria in effect July 1, 2014, on a case by case basis.
